PROJECT DELIVERY:
Design-Build

CONTRACT AMOUNT:
\$28 Million

COMPLETION DATE:
February 2010

Rendering of Completed Facility

This project involves the design and construction of an 85,000 square-foot, three-story administrative facility for the Navy Warfare Development Command, which will be moving from Newport, Rhode Island to Norfolk, Virginia under a Base Realignment and Closure action.

The building is designed and is being built to be architecturally compatible with surrounding facilities, while establishing an individual and contemporary image befitting a two-star headquarters.

The facility will meet appropriate DoD anti-terrorism and force protection standards including blast resistant windows and structural features to prevent progressive collapse. Sustainable design features and construction practices will enable certification under the Green Building Council's Leadership in Energy and Environmental Design for New Construction.

Tesoro has teamed with BE&K Government Group, Inc., a Birmingham, Alabama-based construction firm who is a recognized leader in the construction industry. BE&K brings to the team significant experience in constructing large administrative facilities for a variety of owners, a number of which have been by design-build project delivery.

Burgess and Niple (B&N), an ENR Top 500, full-service, award-winning Architect-Engineer firm, is the designer of this project. B&N, who is Tesoro's designer of choice, has extensive experience designing large administrative facilities.
