MULTI MISSION COAST GUARD STATION

Gulfport, Mississippi

PROJECT CATEGORY:
Operational Facilities

CLIENT:
Coast Guard Facilities
Design and Construction
Center, Atlantic

ARCHITECT:
Burgess and Niple
Virginia Beach, VA

PROJECT DELIVERY:
Design-Build

CONTRACT AMOUNT:
\$16.8Million

COMPLETION DATE:
May 2009

This project involved the design and construction of a 26,000 square-foot, three-story Multi Mission Station and Boat Storage Facility for the U.S. Coast Guard in Gulfport. This complex replaced the one destroyed by Hurricane Katrina in 2005. The facility supports search and rescue and homeland defense missions, houses personnel and provides small boat maintenance and storage.

Project scope included site work, pile foundation, cast-in-place reinforced concrete and masonry buildings, a multi-purpose athletic court, landscaping, architectural security fencing, a 100' telecommunications tower, and parking and paved areas.

This is a LEED candidate project and featured Category 4 hurricane resistant design criteria along with City of Gulfport "SMARTCODE" compliance.
