COMPLETION DATE:
May 2001

This was Tesoro's first Fast Track, Design-Build project. Partnering with the Navy Public Works Center design team, we renovated 6,200 square feet of office space to support the Commander, Navy Region Mid-Atlantic and his Executive Support Staff. The project included demolition, lead and asbestos abatement, historical restoration, mechanical and electrical systems replacement, and installation of systems furniture.

Through informal partnering with Public Works Center design professionals, the ROICC, and the end user representatives,

Tesoro was able to deliver high quality spaces in 13 weeks. This was accomplished in spite of significant asbestos and lead abatement and mandated consultations with the State Historic Preservation Office.
