

TESORO CORPORATION

A Tetra Tech Company

NORFOLK CHRISTIAN HIGH SCHOOL

Norfolk, Virginia

PROJECT CATEGORY:
Educational Facilities

CLIENT:
Norfolk Christian Schools

ARCHITECT:
Paul Finch & Associates
Norfolk, VA

PROJECT DELIVERY:
Design-Bid-Build

CONTRACT AMOUNT:
\$6.3 Million

COMPLETION DATE:
August 2007

The first phase of the project entailed the demolition of the existing high school wing of the Norfolk Christian School facility, which required structural shoring and temporary construction so that the school was capable of using the existing adjacent facilities.

Tesoro then constructed a new two-story, 40,000 square-foot high school wing. A prominent feature of the new addition is a two-story atrium entrance that leads to the administration offices and central staircase of the school.

The new facility features a chapel, three computer technology labs, and a fully-equipped science lab. In addition, there is also an art complex equipped with a ceramic studio, computer graphics, and digital photography lab.

Tesoro also renovated the existing middle school, including sprinkler

installation, upgrades to finishes and casework, and new lighting, cooling and heating systems, which were phased and coordinated to not interrupt school activities.

The project was completed on time with no delays to the start of the 2007-2008 school year.
